

USA(J)MO Problem Statistics

web.evanchen.cc

COMPILED BY EVAN CHEN

May 11, 2021

These are summary of statistics for the USA(J)MO in recent years, based on data that I noted during the grading. Although it is close, this is not totally the same as the official numbers that may be provided by the AMC headquarters. Examples of discrepancies could be:

- Students who do not take the exam could be recorded as scoring zero, or not recorded at all.
- Similarly for students who only take one day.
- Some students take the wrong exam by accident, and their scores may be recorded for overlapping problems, as zero, or not at all.
- Some students accidentally mislabel their ID number or problem number. These errors may or may not be corrected in the numbers here.
- Sometime Evan makes mistakes.
- Many other strange edge cases.

Therefore, these figures should be seen as rough estimates for educational reference only, and not as authoritative data.
